PROGRAM NOTES

NEWS FROM NEWS (& VIEWS)

Three new opinion series are being inaugurated this month on 'News and Views' in keeping with our policy of commentator rotation.

We're pleased to welcome as our Monday commentator Edmund G. Brown, former governor of California, former attorney general, and now practicing attorney in the firm of Ball, Hunt, Hart and Brown of Beverly Hills. Mr. Brown's commentary can be heard Monday evenings at 6:45.

For our Tuesday commentator we're pleased to present Joseph S. Clark, former U. S. Senator from Pennsylvania. Mr. Clark is the newly elected President of United World Federalists. His commentary can be heard Tues. evenings at 6:45.

For our Thursday commentator we welcome Herbert M. Porter, civil rights attorney representing the Committee for Traditional Indian Land and Life. He joins us Thursday evenings at 6:45.

Concluding their series with the May folio were R. H. Darden, Celes King, and Dorothy Gilden. We thank them for their long association with 'News and Views' and look forward to their rejoining us at an early date.

— Larry Moss

CHRONICLE has been cancelled. Chronicle was KPFK's weeknight public affairs program about current events. It was cancelled because KPFK could no longer afford to spare a full time staff member to produce it, and also because KPFK couldn't afford the equipment (studio equipment for the production of the program, "remote [portable]" equipment to record speeches, demonstrations, et cetera). It was cancelled because KPFK couldn't afford the maintenance

of its existing equipment, nor could it afford the continued expense of tape, dubbing [copying], and editing supplies.

Chronicle was current, aware, uninhibited and often depressing. It also had a lot of hidden costs (almost all of its material was original). In its place, we have substituted an open hour. We hope to be able to bring Chronicle back to the air, and that, of course, is entirely dependent upon your support.

WILLIAM, THE FATHER

What could be more appropriate than the Bach Folio to salute William Strother, KPFK's Associate Music Director. In addition to holding a more-than-fulltime job outside of the station, Bill programs all scheduled classical music each month - an average of over 60 hours. Bill types sheets for each time slot, listing all the information on composers, albums, etc. There were 55 time slots to be programmed in May. Bill also co-hosts THE SAVAGE BREAST, Wednesday evenings at 7, with Lew Merckelson, and produces JABBERWOCK, where Saturday mornings from 8 to 9:30 he is known simply as "Margaret Strother's Daddy." Bill's wife, Laura, and their 3 children are all music lovers. Which makes for a lot of encouragement and understanding when he burns those midnight oils at the station. William Strother, we salute you!

BACH FESTIVAL

Of what value is another festival of music? And, why give another Bach festival? These are reasonable questions when one considers the festival schedule for the summer of 1969 in just the United States. Perhaps some festivals are an "approved cultural" scheme for local merchants to make money. KPFK can hardly have that purpose in mind. Other festivals are designed to expose rarely performed music. Without labouring the point the following may express the values, goals, and perchance the whys of another Bach festival.

There is the joy of being emotionally involved with music; an involvement which requires the giving of ourselves to music's magic. In this give and take the festival provides the essential stimuli by means of radio transmission (basically one-dimensional) and the listener supplies the multidimensional qualities of a live performance by what he brings in background and imagination. Thus the experience becomes more than entertainment, and emotional involvement with the music of J. S. Bach can take place. What will be the end result within the participating listener can not be predicted; but, it can be assumed that boredom will not be present.

Such participation can and will deepen our feeling for and understanding of Bach, the baroque, and our culture. One of the principal goals of the festival is to open and clarify those relationships which are meaningful to our time. To bring to the fore and examine those elements common to Bach and his art that continue as a part of us. Perhaps there will be some success in casting off encrustations which have tended to dim or even negate the lustre of Bach's communication. Why has there been taking place, especially since World War I, a revival of interest in Bach which would lead to festivals of his music? What are the elements which have made him the source of such financial successes as the Swingle Singers, The Supremes, and finally the Moog synthesizer?

The festival will attempt by means of exposure to the music, by illustrated lectures, and a panel discussion to shed light on the above and to supply information concerning Bach, his compositions, and his milieu. As the listener renews acquaintances with known compositions it is hoped that new insights will be gained from the given information. At the same time the participant should expand his experience and knowledge through increased exposure to unfamiliar works. There awaits for those who will expose themselves to the unfamiliar a heightened sensitivity to and an intensified awareness of the beauty and strength of Bach's gifts.

The illustrated lectures will begin Sunday, June 1, 1969, with the St. Matthew Passion and will continue during the month dealing the Bach's Milieu. The Organ Works, The Harpsichord Works, The Chamber Music, The Cantatas, The 3 Minor Mass, and conclude with a panel discussion dealing with Problems of Performance. The panel will consist of performer-teachers from Southern California who have contributed to the Bach renaissance. They are Sol Babitz, Malcolm Hamilton, Clarence Mader, Gloria Ramsey, and chaired by Robert L. Tusler. The panel will be open to questions from the audience.

The staff of KPFK, the panelists, and I have laboured to organize and present a Bach festival that will fulfill those goals.

We have not promised to supply once-and-for-all answers or the "only interpretation"; but, we have tried to provide excitement, enlightenment, and the chance for creative involvement.

Robert L. Tusler
University of California
Los Angeles

In the music of Bach, the past and the future are somehow inextricably mixed up, and, somehow, we just felt it was time for a Bach folio. Everybody now knows, certainly since the release of Columbia's Switched-on Bach (for Moog Synthesiser), that BACH IS BEAUTIFUL. We are, in fact, now having buttons made up to that effect, and will give one away with each new subscription you provide us with (if you already subscribe, just get us a new subscriber and we'll give you a button apiece). But, we thought, if it's a Bach Festival we're conjuring up, it should be a special Pacifica-type thing, should it not? So, in addition to all the Bach music we can possibly accommodate during the month of June, we have talked one of the region's leading Bach authorities into providing us with eight programs on the man and his works. One of them is a panel discussion on proper and improper bach performance practices. The others are lectures, to be heard on Wednesday nights and weekends, devoted to the Milieu of Bach's time, his works for organ, harpsichord, the cantatas, the chamber works, the B minor Mass and the St. Matthew Passion. The man providing all this is Dr. Robert Tusler, who has been on UCLA's Music Department faculty since 1958. Dr. Tusler received his Ph. D. from the University of Utrecht. He is Director of Music for the Wilshire Presbyterian Church. He is an organist, the author of The Style of J. S. Bach's Chorale Preludes, and a two-volume work on the organ music of Sweelinck. He is at present working on a book about Bach's Well-Tempered Keyboard, in which he traces back a fantastic number of Bach's themes for both the Preludes and Fugues to other previously existing pieces of music. This, in principle, is not too surprising, since Bach was one of the great summing-up composers of any time. Besides, nothing comes from nothing (or, everything comes from something). It is remarkable, though, that Tusler has actually run to ground this great array of material. We hope he will sometime in the future play it all for us. Bach was an inspired teacher, and he taught through music. He loved the Art, the art of making music, and he has much to teach us all, in the sense that the best art both delights and instructs. Of course, it practically goes without saying that not only is Bach beautiful, but so is everybody else, particularly Varde Ullman and Bill Strother, who have worked so hard to make the idea of this Bach folio a reality.

2:00 THE TRANSFORMATION OF A MAN--I. By popular request, a repeat of the program first aired on November 10, 1968. Dr. Richard Alpert, former professor of Psychology at Harvard University, was one of the first experimenters with LSD-25, and has long been a friend of Dr. Timothy Leary. Following his dismissal from Harvard, Dr. Alpert went through a variety of experiences which culminated in his trip to India, from which he never returned. Instead, Baba Ram Dass came back to the United States as part of his Saddhana. In this program he'll tell you what that is, and will also tell you about what happened to Dr. Richard Alpert. The program was recorded at the Bucks County Seminar House, Inc., on September 15, 1968. Produced by Bob Bisom; technical assistance by Richard Brause. Part II will be heard next week.

4:00 BLACK AND BEAUTIFUL with Ron Dhanifu.

5:45 NEWS OF THE DAY with Megan Evans.

6:00 THE TRAGEDY OF L.B.J.: This is the title of a book written by Eric Goldman, and published by Alfred Knopf dealing with the record of successes and failures of a recent president by a man who was a staff member (consultant) at the White House for 33 months and at the same time a well-known Princeton historian, and able TV moderator of "Open Mind" for NBC. Mr. Goldman is forceful and fascinating in his analysis of the president's assets and defeats. He is not an LBJ hater, nor for that matter an LBJ or Johnsonized man. He admits that he never did "go to the well" with LBJ. Interviewer is Harold J. Quigley.

6:30 ON THE LAM IN VIETNAM--I. "I Refuse to Participate in This War." Two black GI's, hiding out in the slums of Saigon, explain to Edward Opton, Jr., why they went AWOL. Their story will be continued in a series of programs. Recorded in December 1968 in Saigon. (KPFA)

7:00 ELECTRONIC MAGAZINE with Carlos Hagen (6/9, 11 a.m.)

8:00 THE MUSICAL WANDERINGS: of Dave Kahn.

9:00 FEINSTEIN IN VENICE: JEAN RENOIR. Dr. Herbert Feinstein of San

Francisco State College recorded this interview with the great French-American filmmaker at the Venice Film Festival in September 1968. This most humane, and perhaps most talented, film director of all time reviews his career. Most of M. Renoir's films were shown at the Retrospective of the Festival; at the end of his series, the city of Venice presented the grand old man with a gold medal.

10:30 GATHER ROUND THE STAKE: A controversial Christian radical hosts this 90 minute period of provocation to established religious and political institutions. Guests are pertinent with fresh insights. A radical interpretation of contemporary history provides in-depth understanding of the rapidly changing social mores of our times with the result that the program is usually unorthodox, pithy and sometimes prophetic. Tom Ritt-the host-invites you to join him by using Alexander Graham Bell's invention.

12:00 BACH: ST. MATTHEW PASSION
Prof. Robert Tusler is heard in a lecture on this work, which is then heard in its entirety. Wolfgang Goennenwein conducts the South German Madrigal Choir and Consortium Musicum with soloists Teresa Zylis-Gara, Julia Hamari, Nicolai

Gedda, Hermann Prey, Theo Altmeyer and Franz Crass. (Angel SD 3735)

4:00 FROM THE CENTER A MORAL EQUIVALENT FOR VIOLENCE. Americans cherish an amiable vision of themselves as peace-loving and rational. History, however, shows that violence is deeply rooted in the American culture. Harvey Wheeler of the Center for the Study of Democratic Institutions in Santa Barbara reports on a study he completed for the Ford Foundation which indicates that minority groups have traditionally entered the mainstream of American society through violence. Paraphrasing William James, he calls for a moral equivalent for violence. (6/9, 12n)

ROBERT GOODMAN

August 5, 1914--May 20, 1968

Robert Goodman, President of Pacifica Foundation and of WBAI, died suddenly on May 20, 1969. Those who knew Bob Goodman loved him. Those privileged to work with him respected him deeply, for he was--at once--a gifted engineer and a sensitive poet, a successful businessman and a loving human being dedicated to social justice and freedom of speech. The following autobiographical lines, written by him at an earlier time, convey the essence of Robert Goodman's character and humanity.

"I was born on August 5, 1914, in New York City--on the very same day Europe declared war on itself. Since my birth nothing essential has changed, except the scene has shifted to a broader stage whereon America now pursues warfare against Asia. During this short span of time my own life has been saturated with the amalgam of these conflicts.

"I attended New York City schools until my graduation from High School in 1939, and entered Cornell University in Ithaca, New York, a city boy in a land-grant school. Out of the eclectic

contrasts existing in my life and times, I pursued studies both in the Humanities and Engineering Science, receiving from Cornell a "Bachelor of Arts" degree in 1935 and a degree of "Civil Engineer" in 1939.

"I am a member of the American Society of Civil Engineers and the New York State Society of Professional Engineers. I am President of the Grown Construction Co., Inc., a company primarily involved with the construction of tunnels, bridges, foundations and related subsurface work. I am a Trustee of the Compressed Air and Tunnel Workers Welfare and Pension Trust, and a member of The Moles--a contractor's organization for those who work underground.

"I am also the President of Pacifica Foundation, owner of three radio stations--WBAI in New York, KPFA in Berkeley, California and KPFK in Los Angeles, California. It has been said by some that this is another form of my underground activity. Perhaps, but for me its free air is an affirmation of the Bill of Rights and a true voice of social responsibility.

"From 1946 to 1954 I was a Trustee of the Walden School, a pioneer in mod-

ern educational theory and practice, where individual needs supercede the demands of system.

"I was married to Carolyn Elizabeth Drucker in 1938 and we have three sons. Two are living, Jonathan and David, and one is dead--Andrew Goodman, murdered in Mississippi, January 21, 1964--in the same conflict into which I was born."

Such a man is not easily replaced. We can do no better than to measure the Foundation and the stations against his standards, his aspirations, his humanity and his integrity. We shall all miss him. To the Goodman family, our deep and personal sympathy. And to Bob Goodman, Peace.

Ciaccona.
